Section 1: Intent The intent of this bill is to have Montana succeed from the United States. Under the Enabling act each territory would have to ratify the act with a state legislature to officially become a state. Montana did not have a state legislature when we ratified it; we passed the act with a territorial committee. Thus, under a technicality of U.S. law, Montana is still a territory. This bill asserts that Montana wants to be no part of a country that will willfully overlook it's own laws, and illegitimately rule over a territory for over two hundred years when it is in it's interest. We have been taxed, jailed, conscripted, and subjugated to a country with no legal legitimacy for far too long and we are done.

Section 2: Action Upon passage of this bill, Montana will declare and the national government will recognize, the autonomy and sovereignty of the republic of Montana. Our Seccessation will likely go unchallenged because we are the owners of one of the largest stockpiles of minutemen missiles in the country. After passage this congress can then deliberate on what actions to take as a sovereign nation.

Section3: Effective Date This bill will be enacted immediately.
