I represent the concerned citizens of Montana for senior citizens having restrictions on their driver's licenses. We want to help maintain safe roads and highways. This includes keeping senior citizens from driving after the age of 80 years old. When driving on the roads there shouldn't be anything unnecessary that slows us down. Usually drivers are in such a hurry that the smallest things can cause them to be late or become emotionally unstable. These small things include senior citizens.

Senior citizens go about things in a slower manner than most of us prefer. For the average person a day is full of important things that need to be done. We don't have too much time to just enjoy life. On the other hand, senior citizens have a lot of time on their hands and therefore can take as much time as they please to get from point A to point B.

This paper is in compliance with the Montana Youth Legislature and Government Lobbyist Disclosure Policy.

Signed,

Sarah Palecek
